

# ChemLINE®

High Performance Coatings that resist aggressive chemicals, including strong acids, alkalis, gases, solvents and oxidizers

## DURABLE coatings handling a range of chemicals and high-temp applications

ChemLine® coatings from Advanced Polymer Coatings provide high performance corrosion protection. They are engineered using unique patented polymer technology to deliver excellent resistance to a wide range of aggressive chemicals.

ChemLine® coatings offer outstanding features and benefits, which can include:

- Cargo Immersion Service for over 5,000 chemicals
- Steam cleanable
- Resists 30,000 PSI hydroblasting
- Virtually non-permeable - won't absorb cargoes/chemicals
- Excellent heat resistance
