

ChemLINE®

High Performance Coatings for Lining Over-the-Road Tankers

- 1 Exceptional Flexibility.** ChemLine® has excellent elongation and flexibility properties, and withstands the physical vibrations and movement associated with over-the-road trailer transport.
- 2 Versatility.** ChemLine® has the unique ability to handle more than 5,000 chemicals, including the full IBC range, hazardous cargoes, food grades, edible oils, fatty acids, black oil products, solvents, spent caustics, and biodiesel fuels. No other coating offers this level of versatility and flexibility. Carry the most profitable cargoes!
- 3 Purity.** ChemLine® uses a unique cross-linked polymer structure that delivers superior resistance. Once the coating is heat cured, you are virtually ensured of the product purity of your cargoes.
- 4 Performance.** Thousands of tanks on chemical/product tankers have been coated with ChemLine® throughout the world.
