

ChemLINE®

The Unique Polymer Tank Lining That Protects Against Aggressive Chemicals

➤ **ChemLine®** coating provides superior chemical resistance to a wide array of hazardous chemicals, even at elevated temperatures, including aggressive acids, alkalis, solvents, CPPs, and edible oils.

➤ **ChemLine®** is a unique high performance polymer coating that is 97% solids with extremely low VOCs. It is the preferred lining system for bulk chemical storage tanks.

➤ **ChemLine®** is an investment in the integrity and longevity of your tanks against corrosion and chemical attack, and an assurance that chemicals contained inside remain pure.
