

ChemLINE®

High Performance Coatings for Power Generation

DURABLE coatings for handling aggressive Power Plant applications including stacks, linings, ductwork and scrubbers.

- High Chemical Resistance
 - Resistant to hot flue gasses
 - Condensing HCL, SO₂, H₂SO₄
- Excellent Thermal Cycling
 - -40°F to 400°F
- High Abrasion Resistance
 - Resistant to fly ash & particulates
- Low Coefficient of Friction
 - Reduce ash build up
- Heat Resistance to 500°F

Advanced Polymer Coatings
Avon, Ohio 44011 U.S.A.
