

# ChemLINE®

## High Performance Coatings for Baghouse Applications

***DURABLE*** coatings for handling aggressive Baghouse applications including linings, hoppers, ductwork, and stacks.

- High Chemical Resistance
  - Resistant to hot flue gases
  - Condensing HCL, SO<sub>2</sub>, H<sub>2</sub>SO<sub>4</sub>
- Excellent Thermal Cycling
  - -40°F to 400°F
- High Abrasion Resistance
  - Resistant to fly ash & particulates
- Low Coefficient of Friction
  - Reduce ash build up
- Heat Resistance to 400°F

*(Top) Severe corrosion inside Baghouse.
