

FIVE IN A SERIES on operating chemical tankers more profitably

▶ 5

Profit from MarineLINE® *Generate a Strong Return on Investment (ROI)*

▶ The MarineLine® coating system handles the widest range of chemical cargoes in the liquid transport industry. This leads to excellent opportunities to carry the most profitable cargoes.

Plus, the versatility of MarineLine® **allows owners to transport and deliver one group of cargoes, and then carry a different set of cargo on the next voyage**, all with minimal cleaning and downtime.

Add up these key benefits and MarineLine® is proven to deliver a Return on Investment (ROI) faster and more profitably than any other tank coating on the market, and also when compared to the high cost of stainless steel tanks.

See the MarineLine® difference today

Another chemical tanker newbuild coated with the innovative MarineLine® system stands ready to deliver on its investment.
