

MarineLINE[®] 784

MarineLine[®] Versatility Safely Carries the Full IMO Range

Tests certified or performed on these cargoes by DNV, Verwey Labs and other independent labs, show the product purity of MarineLine[®] coating before and after 30 days immersion with no contamination.

MarineLine[®] has become the leading cargo tank coating for one key reason – the ability to carry all IMO approved cargoes and easily switch cargoes after cleaning, so tanker fleets keep operating at capacity levels.
